

# TFC Steering Committee Notes

**August 22nd**

**Attendees:** Matteo, Dave R, Bence, Glen, Paul,

**Minutes:**

- Infrastructure
  - In Progress - FVPs in the Cloud & UBL license ([TFC-198](#))
- TF-M CI: LAVA test getting slow ([TFC-479](#))
  - 2 MPSs are still in maintenance mode, Lab is requesting additional boards. ([STG-4884](#))
  - anton.komlev@arm.com will check into this, Glen Valante and will follow up that there may be some additional boards on the shelf (See [STG-3444](#)).
- MBedTLS
  - Issue: The redirect link doesn't work STG-[4865](#) is in progress
- [TFC-247](#) Mirror TF-M, TF-A, TS projects into GitHub
  - Patches sent, need reviews from TF-M team. When these have been deployed, the other projects can be deployed.
- Misra
  - The team is working with bugseng on a blog post.
  - Clean up on TF-A scripts needed to align with TF-M code.
  - TF-M - awaiting feedback, Paul Sokolovsky to send out an email, anton.komlev@arm.com will review.
  - TF-A team is evaluating the number of configurations needed.
  - There is some concern that the actual load of the configurations may impact performance.
- LTS Builds
  - Now running dailies, some issues have been resolved.
- Priorities
  - Review of next priorities/kanban board
  - Clean up quick targets in the Backlog
  - Look into starting: IAR Compiler support is next on the list ([TFC-13](#))
  - Paul
    - Misra TF-M / TF-A
    - FVP/UBL
  - Arthur
    - Boards - Chromebook Corsola
    - [TFC-247](#) Mirror TF-M, TF-A, TS projects into GitHub
- Open Table
  - no issues from the attendees.
