

# TFC Steering Committee Meeting Minutes

(Send to: [tf-openci-triage@lists.trustedfirmware.org](mailto:tf-openci-triage@lists.trustedfirmware.org))

**December 12, 2023**

**Attendees:** Karen, Ben, Glen, Joanna, Anton, Dave

## Minutes

- Infrastructure
  - TF-A
    - Business as usual post-release deployment
    - Joanna reported they can now log into Gerrit but need to use 2FA
      - **Action** - Ben to follow up with Kelley and ask him to send an email to users about the issue
      - **Action** - Karen to follow up with Dan Handley in Jira
    - Running out of disk space
      - Quite a few jobs failed overnight
      - **Action** - Ben to create a STG ticket to get additional disk space
  - TF-M
    - Business as usual post-release deployment
    - Anton would like to move out the documentation to ReadTheDocs and would like to change the link
      - {Open Action - Anton to send the link to Don when it's ready so he can update the website}
      - **Closed** - Anton sent the link to Don and he updated the website
  - TF-A LTS
    - Karen will be attending the weekly LTS Catch-Up meeting to inform the team that Paul will be unable to work on the tickets leading up to the Go Live date of Feb 9
    - His focus will be FVP now that UBL is finished
  - MBedTLS
    - Windows is taking 90 mins to run
      - Bence said in our last meeting he would raise a ticket for the team to come up with suggested changes
      - Dave to follow up with Bence
- Ben
  - Jenkins upgrade to happen over the next week or so
  - Lab teams are working on the LAVA docker worker
- Paul
  - UBL is now complete
    - Seems to be stable, but will keep an eye on it
    - It was agreed that ticket [\[TFC-198\]](#) would be taken over by Bence
    - Karen commented on the ticket, asking Bence if he's still taking it over
  - Focus is on TuxSuite FVP
- Arthur
  - ST Boards
    - The ci script is now working, but the boards aren't stable
    - Have issues running the TF-M tests on the stm32h573i-dk board

- Some boards can't be rebooted with the TF-M test firmware if we flashed the TF-M firmware followed by the health-check firmware
- The board was reset by sending a command, but nothing came up from the serial console with the TF-M firmware
- Overall, out of two boards, one of them has this problem
- Three boards were set up on LAVA, and two of them have this problem
- Issue is still being investigated
- Other
  - Christmas Holidays
    - [Arthur She](#) Will be out Dec 25-28, Jan 1
    - [Paul Sokolovsky](#) Will be out Dec 25, Jan 1-2, Jan 7
    - [Benjamin Copeland](#) Will be out Dec 25, Jan 1
    - [Karen Power](#) Will be out Dec 22, Dec 25-26, Jan 1
  - TF Triage Sync Meetings Over the Holidays
    - Dec 26, Jan 2 meetings cancelled
    - Meetings will resume on Jan 9
