(Send to: tf-openci-triage@lists.trustedfirmware.org)

Attendees: Karen, Bence, Olivier, Joanna, Ben, Sufyan

February 18, 2025

Minutes

- Infrastructure (FVPs in Tux)
    - TF-A
        - **[TFC-692] LTS-v2.8.25: mail and readthedocs update were not done - Jira**
            - In Upstream Review
            - There's still an issue with it and is being worked on
        - **[TFC-688] LTS Maintainers would like to run dependabot for all LTS branches - Jira**
            - In Upstream Review
            - Chris Kay still looking at it
        - **[TFC-660] Evaluate Feasibility of Publishing Binaries to Private Storage for Model Containers - Jira**
            - In Progress
            - Still being worked on
        - **[TFC-655] Create infra support for upcoming v2.12 LTS - Jira**
            - In Upstream Review
            - Patch has been updated
            - Waiting for Yann to let us know if the ticket can be closed
        - **[TFC-402] Adding the MISRA (Mandated, Recommend, Advisory) report run on the tf-a-eclair-delta job - Jira**
            - This is next on Arthur's list to address
    - TF-M
        - No representation from TF-M was on the call
    - Ben
        - Have had a certificate issue on Lava

- - - Ben has been aware of this issue and has been working on it for a while
  - Sufyan
    - UAT for the TF teams started yesterday and is scheduled for 2 weeks
      - New ticket was created [TFC-726] Migration of the DNS records for the trustedfirmware.org domain for Gerrit and Jenkins - Jira
        - Priority is Critical as Arm needs this to be done before they Go Live
      - The Arm transition team is on stand-by during UAT
      - Will use our weekly Wednesday call to update on progress
    - Gerrit work started last week
      - Not sure of the current status as a number of people are out this week for the half term holiday in the UK
    - Sufyan is going on vacation starting February 26-March 7 inclusive
