TFC Steering Committee Meeting Minutes

(Send to: tf-openci-triage@lists.trustedfirmware.org)

November 26, 2024

Attendees: Karen, Matt. Matteo, Sufyan, Paul, Joanna, Anton, Ben

Minutes

- Infrastructure (FVPs in Tux)
    - TF-A
        - Chris Palmer had a question on Discord
            - Action - Karen to follow up and ensure he gets a response from Linaro
        - Arthur to update comments on [TFC-656] TFC: Asurada Chromebook health check job failed due to LAVA test timeout - Jira
        - [TFC-692] LTS-v2.8.25: mail and readthedocs update were not done - Jira
            - This is on Paul's list of tickets to address this week
    - TF-M
        - No issues to report this week
        - Antonio created a new ticket for Ben's group to address [TFC-695] Additional Environmental variables required for CS-320 FVP - Jira
    - Ben
        - Nothing to discuss this week
    - Paul
        - Paul was away for the last several days so he's catching up today
        - Karen provided him with a list of tickets to address
    - Sufyan
        - Not much of an update this week

- A technical call with the Eclair team is scheduled for tomorrow to ensure there's a common understanding of the licensing that's required for the transition project

- [TFC-690] Create a How-To Guide for IAR (Server) - Jira

  - Update - Arthur sent an email last week with information on the IAR license server, including info package and user guide

  - Action - Still open on Kelley to create one on the Infrstructure side

    - Kelley has since updated the comments in the ticket with a link to the document for the Arm team to review

- [TFC-687] Request for LAB IP CIDRs - Jira

  - Action on Sufyan to get back to Ben on this ticket

- [TFC-680] Support request for Arm Transition to OpenCI project - LAVA access - Jira

  - Action - Sufyan to see the latest comments in the ticket

- [TFC-691] Information on how the AMIs are cleaned up - Jira

  - New ticket created by Saheer and assigned to Paul
