TF OpenCI Triage Meeting Minutes

June 10, 2025

Minutes

- **TF- A** (Olivier/Joanna)
  - Restart needed yesterday fine tuning infrastructure
- **TF-M** (Anton/Matt)
  - Outstanding:
  - https://linaro.atlassian.net/browse/TFC-731 Investigate eRPC testing in LAVA
    - Blocker
    - Remi updated, created new feature ticket in Lava.
    - In progress
    - **Ben - Requires TF lava release maybe in a months time**
  - https://linaro.atlassian.net/browse/TFC-757 TFC: asking MPS2 replacements from arm to replace MPS2-02, and MPS2-03
    - Anton sourcing replacement hardware
    - In progress
    - Anton suggests a move to FVP as MPS2 unreliable
      - Ben to Matt/Anton - do you get the same coverage? Its an unreliable board and good to remove if possible but it really depends what you're getting out of the coverage.
      - **Anton - We should just do it - Ben actioning**
- Sufyan
  - MbedTLS we were going to carry out UAT but its been delayed .. and MbedTLS release on horizon aiming for 1st or 2nd week of July
  - Gerrit work coming on but will still happen .sometime. after MbedTLS
    - Ben votes gerrit first- gives yourself time to see what your changes are in your current migration. More confidence in the system with less changes ongoing.
    - Saheer Gerrit switch does require a down time that will need to be planned, TBD
    - Matt privs and roles need defining
- Bence
  - https://linaro.atlassian.net/browse/TFC-747 Add github.com host key to known_hosts in MbedTLS OpenCI AMIs
    - Awaiting response from Bence
- Saheer
  - Ben commented - some agents have not been starting. Link provided. https://ci.trustedfirmware.org/plannedAgents/kubernetes/docker-amd64-tf-m-jammy-b4x8t/problem

- Afterparty Items
  - Open CI Dashboard
    - Ben quickly presented demo
      - WIP Link:

        https://production-trustedfirmware-org-644.ghactions.linaro.org/
      - Some known issue with empty items
      - Mbed TLS is a bit more difficult it comes from one job with

        different parameters - any advice appreciated
  - Gerrtit UI glitches seen
    - Report all issues here : https://linaro.atlassian.net/browse/TFC-746
      - Some investigations on going please keep adding incidents
  - We are trying to maintain the priority field on tickets and reviewing it during the

    call. Please let us know if you disagree with a priority.
