

TFC Steering Committee Notes

(Send to: tf-openci-triage@lists.trustedfirmware.org)

August 8th

Attendees: Don, Ben, Joanna, Anton, Mark R, Paul

Minutes:

- Infrastructure
 - Status of FVPs in the Cloud & UBL license ([TFC-198](#))
 - Building out the FVP models to support on Tux
 - When can Paul start to migrate over the tests the model runs on?
 - Ben: Vishal and Paul working on this. Will be a few weeks.
 - Targeting Oct for completion of this

- TF-M CI: LAVA test getting slow ([TFC-479](#))
 - Tests are now running so they are unblocked. The performance is still not great - 5+hrs
 - 2 MPS's are still in maintenance mode. Awaiting support from Lab team. ([STG-4884](#))
 - Boards were off line, brought back up
 - Anton: Now back to normal - boards were offline. Thanks!

- MBedTLS
 - Issue: The redirect link doesn't work on the new MbedTLS Jenkins server. Not blocking anything
 - ([STG-4865](#)) - Awaiting response from Systems Team
 - Kelley to work on this this week. Believe a port # issue.
 - Request to add Priority Sorter plugin and the Disable GitHub Multibranch Status plugin ([STG-4891](#))
 - Plugin to be deployed today
 - Dave: The MBed TLS infrastructure is working quite well at this point. Thanks!

- Open Table?
 - Joao - Don provided access to Linaro. When Glen returns he'll provide TFC Board access to Joao.
 - Joanna: Paul, you need anything re: Misra?
 - All good, still has Queue, awaiting feedback from Anton
 - Anton: No questions, ready to go public.
 - Anton to send an email to the
 - Don to have blog sync w/ Bugseng, will keep folks posted on support needed
 - Paul: Would like to finish [TFC-408](#). Only one job left using Bionic image.
 - Joanna: Eng. at Arm on vacation. Returns 14th. No problem to move

- Priorities
 - Paul
 - Misra TF-M / TF-A
 - FVP/USB
 - Arthur

- Boards - Chromebook Corsola
- [TFC-247](#) Mirror TF-M, TF-A, TS projects into GitHub
