Minutes

- Infrastructure (FVPs in Tux)
  - TF-A
    - [**TFC-692] LTS-v2.8.25: mail and readthedocs update were not done - Jira**
      - Karen commented on the ticket yesterday asking Ben what the next steps are
      - Now in Upstream Review
    - [**TFC-688] LTS Maintainers would like to run dependabot for all LTS branches - Jira**
      - In Upstream Review
      - Karen asked Chris Kay to take a look at it a few days ago and we haven't heard back
        - Olivier said he would ping Chris
    - [**TFC-547] TF-A LTS: New LTS branch creation automation - Jira**
      - In Progress
      - Arthur has submitted a patch
      - Waiting for Joanna and the LTS developers to test and provide feedback
    - [**TFC-669] LTS Maintainers would like to upstream recovered LTS proposal document - Jira**
      - In Upstream Review
      - Govindraj said he has a patch in review
      - Waiting to hear back from him end of Jan or Feb
    - [**TFC-712] More informative LAVA output on TF-M CI - Jira**
      - Now in Upstream Review
  - TF-M
    - There were some issues yesterday with disk space

- Arthur has resolved
  - Getting CI mailing list notifications
    - Seems like it's coming out of Lava testing
    - Anton is an Admin so he can fix

- Ben
  - Everything is going well; no issues
  - Action - Send out email on Tux limits

- Sufyan
  - The focus now is starting to engage with the stakeholders (TF-A,TF-M,Hafnium) where we'll discuss UAT
  - Hoping to start UAT next week
    - Pipelines are Green

- Shebu
  - Shebu brought up the email that don.harbin@linaro.org sent out regarding trying to put together a high level marketing dashboard and the estimate we have to come up with to present to the board.
  - Will be put on the agenda again for next week as we ran out of time
