

# TFC Steering Committee Notes

May 23rd

Attendees: Glen, Paul, Ben, Joanna, Anton

## Minute:

- TF-A Release
  - The release is completed. CI load should be back to normal. The load around the release.
- Infrastructure
  - Security update for Jenkins Plugin
  - The team will meet Thursday to review the updates that will go into production. Come up with a plan that rolls in the changes and monitors the performance.
- TF-A LTS
  - This is being migrated to production. Is there someone watching the output from the CI and maintaining the branch?
    - Vipin, Varun, and Oakash are monitoring this.
    - **AI: Joanna will follow up with the team to see their process and communicate back to the team.**
  - Do they have Access to Jira? Yes.
